

Our passion is to deliver high quality, cost effective and timely Web design, Web development, Graphic Designing services. Our team believes in pushing the limits while exploring, innovating, and creating websites and applications. We build websites that turn your visitors into customers. We integrate communications, data management and security to offer clients e-commerce solutions to businesses worldwide.

Indinova Technologies has more than 4 years of experience in Web Programming, Database Design/Management and Systems Administration. We can provide a reliable and trustworthy service on time. We can also provide software, web pages and database optimizations in matters of performance and security. We are pioneers in providing total offshore and onshore web based solutions for small to large enterprises. We deliver high quality solutions and services through our motivated and qualified team which is focused on exceeding clients' expectations every time.

Our E-Commerce Website Design solutions offer a powerful combination of design and technology. This comprehensive set of online e-commerce technology is designed to help you make the most of your new or existing business. Our E commerce solutions will help you increase your sales and improve your bottom line.

Our core competencies includes HTML/DHTML, CSS, JavaScript, JQuery, AJAX, Java, PHP, MySQL, ASP.net 3.5/4.0 using C#, Microsoft SQL Databases, Microsoft Access, Adobe Photoshop, Corel Draw, Macromedia Flash, Adobe Flash.

We also feature in integration of Online Payment Modules to existing and new websites. We offer website hosting and domain registration as per requirements of the clients.

Our Online stores offer a complete solution to online business requirements:

- ✓ We develop database driven online stores.
- ✓ The applications are divided into store front and backend inventory management forms and reports.
- ✓ Our e commerce sites are all inclusive with Shopping Cart, database driven content and report generation,
- ✓ All personal information can be encrypted with SSL prior to transmission,
- ✓ An extensive search feature that takes your visitors to the desired product,
- ✓ Automatic calculation of shipping and handling costs.

We excel in customization of open source PHP applications for building unique E-Commerce solutions. Our expertise includes customization of CS-Cart, Cube-Cart, OSCommerce, Magento, Open Cart, PrestaShop, X-Cart, IXXO Cart, Volusion, nopCommerce and many more.

We also excel in logo and graphics designing. We understand that company's logo is a symbolic representation of company's vision, values and ethos. We at Indinova Technologies, give utmost importance to understanding the client's way of thinking, nature of business, the targeted market and customers before we actually start working on a logo design. Our Team resides skilled and experienced logo designers that are quite capable of capturing the identity and image of your company in a tiny customized logo. We can design logos in various ways. We have the ability to create simple logos as well as flash based logos according to the needs of the clients.

Thanks and regards,

Indinova Technologies
